Automatic Ground Collision Avoidance System Team to Receive the 2018 Robert J. Collier Trophy

Washington, DC, April 5, 2019 – The National Aeronautic Association (NAA) is pleased to announce that the Automatic Ground Collision Avoidance System (Auto GCAS) Team has been named the recipient of the 2018 Robert J. Collier Trophy for “... successfully completing a rapid design, integration, and flight test of critical, lifesaving technology for the worldwide F-35 fleet.”

The Collier Trophy is awarded annually “...for the greatest achievement in aeronautics or astronautics in America, with respect to improving the performance, efficiency, and safety of air or space vehicles, the value of which has been thoroughly demonstrated by actual use during the preceding year.” The list of Collier recipients represents a timeline of air and space achievements, marking major events in the history of flight.

“I am so proud of the entire Auto GCAS Team and their commitment and dedication to saving lives through this revolutionary technology,” expressed Mark Wilkins, Senior Aviation Safety Analyst, Office of Secretary of Defense for Personnel Readiness and Safety. “We are truly honored to be recognized with such a prestigious award and deeply humbled considering the aviation greats who won previously.”

“I want to congratulate the Auto GCAS team on winning the 2018 Collier Trophy,” said Greg Principato, President and CEO, NAA. “The Collier Trophy was established more than a century ago to encourage the best minds in this country to continually find ways to advance and improve aviation. The Auto GCAS team, comprised of elements of the U.S. Air Force, to include the Air Force Research Laboratory, Lockheed Martin, the F-35 Joint Program Office, NASA, and the Defense Safety Oversight Council; is a sterling example of a project that brought together the best minds from many disciplines. The result is a game changing advance in safety that has already changed military aviation and can one day change the game for everyone.”

The Collier Trophy Selection Committee, comprised of 30 aviation and aerospace professionals, convened on April 4, 2019 to hear presentations from 11 nominees.

The Collier Trophy Selection Committee:

Richard Aboulaflia, Teal Group	Terry McVenes, RTCA
Jim Albaugh, Chairman, NAA	Mary Miller, BBA Aviation
Brett Alexander, Blue Origin	Mary Claire Murphy, Textron
Ed Bolen, NBAA	Ken Panos, Aerojet Rocketdyne
Chris Brunner, Pratt & Whitney	Eric Pierce, Lockheed Martin
George Carneal, Legal Counsel, NAA	Donald Pointer, Dassault Falcon
Leda Chong, Gulfstream Aerospace	Peter Prowitt, GE Aviation
Greta Lundeberg, The Boeing Company	Bill Readdy, Discovery Partners International
Duane Hawkins, Spirit Aerosystems	Mark Rector, Honda Aircraft Company
Ray Johns, FlightSafety International	Skip Ringo, The Ringo Group
Carl Johnson, Treasurer, NAA	Darryl Roberson, Rolls-Royce, North America
Leo Knaapen, Bombardier	Shelly Simi, NASAO
Samantha Magill, AIAA	Alyssa Ten Eyck, Embraer
Sandy Magnus, Executive Director Emeritus, AIAA	Read Van de Water, Safran USA
Clay McConnell, Airbus	Brian Wynne, AUVSI

The Collier Trophy will be formally presented at the Annual Robert J. Collier Trophy Dinner on June 13, 2019 in Washington D.C. For more information or to view a complete list of previous recipients of the Collier Trophy, please visit www.naa.aero.

The National Aeronautic Association is a non-profit, membership organization devoted to fostering America's aerospace leadership and promoting public understanding of the importance of aviation and space flight to the United States.
